Objective

Delta Dólares seeks to maximize dollar liquidity for investors through a capital preservation alternative with daily liquidity. The Fund can invest up to 30% in accrual instruments (time deposits and dollar collateralized placements), and the remaining 70% in immediate liquidity instruments (interest-bearing bank accounts, callable time deposits, etc. in dollars). The benchmark is 50% USD 30-day Time Deposit Rate + 50% USD Interest-Bearing Accounts Rate.
