## Objective

Delta Moneda is a fixed income fund that seeks to obtain a performance comparable to the official exchange rate evolution (Communication "A" 3500 of the Central Bank) in the medium/long term. The fund has a positive correlation with the official exchange rate movement, without representing a perfect hedge. The fund invests mainly in dollar-linked Argentine fixed income instruments (sovereign as well as corporate) and/or fixed income instruments in pesos with hedge of Rofex dollar futures. The fund may invest up to 10% in USD bonds.
